PROFESSIONAL SUMMARY

Passionate Front-End Developer with over 5 years of experience in designing, building, and optimizing modern web and cross-platform mobile applications using **JavaScript, TypeScript, Angular, React, and Next.js**. Proven track record in transforming complex UI/UX designs into responsive, accessible, high-performance web systems. Expertise in architecting enterprise CRM platforms utilizing **Modular Architecture, Micro-frontends (Nx & Module Federation)**, and real-time offline-first mobile synchronization with **Firebase** and **Couchbase**. Dedicated to engineering excellence, maintainable code, cross-browser compatibility, and collaborative team success.

TECHNICAL SKILLS

Languages & Core Web:

JavaScript (ES6+), TypeScript, HTML5, CSS3/SCSS, PHP, Node.js

Architecture & Patterns:

Modular Architecture, Micro-frontends (Module Federation), Nx Monorepo, RESTful APIs, Component-Driven UI

Frameworks & Libraries:

Angular (17-19), React.js, Next.js, NativeScript, RxJS, Tailwind CSS, Bootstrap, Material UI

Tools, Cloud & DB:

Git & GitHub, VS Code, Chrome DevTools, Vite, Figma, Firebase, Couchbase, Postman

WORK EXPERIENCE

Front-End Developer • E-Solution

Previous • Semarang, Indonesia

- Spearheaded front-end development and maintenance for high-impact web and mobile applications using **Angular, Next.js, NativeScript, and TypeScript**.
- Architected scalable modular frontend architectures and micro-frontends with **Nx Monorepo** and **Webpack Module Federation**, enabling decoupled deployments for enterprise CRM solutions.
- Partnered closely with UI/UX designers and back-end engineers to ensure flawless RESTful API integration, optimal system latency, and seamless offline data synchronization with **Firebase & Couchbase**.
- Standardized modern engineering workflows: reusable component libraries, atomic CSS with Tailwind, rigorous type safety, and Git pull-request workflows.
- Conducted proactive code reviews, browser performance auditing, and multi-device debugging to achieve high responsiveness and cross-browser reliability.

Front-End Developer Intern • Landa System

Malang, Indonesia

- Developed responsive and accessible web interfaces using **JavaScript, HTML5, CSS3, and Bootstrap**.
- Contributed to full-stack web applications integrated with **Laravel** back-ends and **React.js** client interfaces.

Web Developer Intern • BPJS Kesehatan

Jayapura, Indonesia

- Contributed to front-end and back-end maintenance of healthcare information portal features using **PHP (CodeIgniter)** and **Bootstrap**.

📁 KEY FEATURED PROJECTS

Jago Motor (Enterprise CRM)

ENTERPRISE

A comprehensive, enterprise-grade CRM system designed to handle nationwide vehicle operations, inventory management, customer pipelines, and dealer workflows with micro-frontends.

AngularTypeScriptNxModule FederationBootstrap

Jago Motor Customer App

MOBILE APP

A cross-platform mobile application enabling customers to seamlessly purchase motorcycles, order spare parts, and schedule workshop maintenance appointments with real-time tracking.

NativeScriptAngularFirebaseCouchbase

Jago Motor Sales App

MOBILE CRM

A dedicated mobile CRM tool for dealership sales agents to manage client leads, schedule client visits, generate sales orders on the go, and review transaction metrics offline and online.

NativeScriptAngularTypeScriptFirebaseCouchbase

Jago Motor Driver App

LOGISTICS MOBILE

A logistics application designed to streamline vehicle deliveries, providing drivers with route optimization, live dispatch updates, and delivery status verification via Google Maps.

NativeScriptAngularGoogle MapsFirebase

React Admin Console

WEB PLATFORM

A customizable administrative console featuring interactive data visualization, role-based user management, activity auditing, and high-speed API data tables.

ReactTypeScriptMaterial UIViteFirebase

Mobile Merchant App

MOBILE PLATFORM

A mobile business management solution enabling registered merchants to track point-of-sale transactions, analyze sales charts, and manage storefront inventories.

NativeScriptAngularTailwind CSSFirebase

🎓 EDUCATION

Bachelor of Informatics Engineering

Sekolah Tinggi Teknik Atlas Nusantara Malang

2015 – 2019 • GPA: 3.37 / 4.00

Focused on Software Engineering, Web Systems, Object-Oriented Architecture, and Distributed Databases.

🌐 LANGUAGES & SOFT SKILLS

Languages: Indonesian (Native), English (Intermediate / Professional)

Soft Skills: Technical Leadership, Cross-Functional Collaboration, Problem Solving, Clean Code Mindset, Attention to UX Details.
